This diminutive speaker hits well above what its size suggests, producing deep bass, bright highs and a lush mid-range. Multifunction ³ not be used to change tracks or to activate voice As Siri. While most wireless speakers sound good, Bose Soundlink Mini II shows that small speakers not è € " compromise sound. With a price of 199 dollars (170 pounds, 300 Australian dollars), the Soundlink Mini II is expensive for what you receive. The heights were entangled and helped the violins and dishes sound spacious. A € None none Silba speaker with low listening low, what is a great novelty for lovers of classical music, verdict final wireless loudspeakers have changed rapidly since Bose Soundlink Mini was presented II In 2015, à € œNustless NFC can be paired easily, there no multipoint bluetooth to match several devices simultaneously and is not water resistant. The battery duration is also rated for an average of 10 hours where speakers like JBL CHARGE 3 can last up to 20 hours and charge your phone in a pinch.À While the lack of features can turn off some buyers, it would be an error discarding the Soundlink Mini II completely because it is still one From the wireless speakers that best sound on the market,designthe Bose Soundlink Mini II is built as a tank. We are also impressed by the speaker's ability to recover details such as the breath of a music and the clink of the public glasses on the live jazz tracks. Perhaps the most amazing aspect of the Soundlink Mini II performance is its ability to sound either at any volume. The sound of live music is the one that has surprised us. But if you want one of the best wireless speakers that sound for less than \$ 200, à € it is difficult to do better than Bose Soundlink Mini II. But, how is the soundlink mini II in front of a more modern competition, on the Specification Sheet, you may feel disappointed to discover everything that is missing from Bose Soundlink There. Last but not least, there are pins at the bottom of the speaker to use the included dock. Read more Featured Customize Speakers Headphones Gaming Professional Car & Marine Specialty Audio Sale Toyota Explore JBL Support The Bose Soundlink Mini II Bluetooth speaker is relatively old, having been in June 2015. We were impressed by the quality and impact of the bass as the speaker played bass heavy songs with authority and without distortion, even at high volume.À Compared to the competition, the Bose SoundLink Mini II just sounds better. Consumers expecting NFC pairing, multi speaker pairing, multipoint Bluetooth, waterproofing and multi-day battery life will be disappointed by the SoundLink Mini II.À However, writing off the SoundLink Mini II would be a mistake, as it remains one of the best sounding wireless speakers. The speaker wowed us by punching way above what its diminutive size would suggest.À While most compact wireless speakers struggle to output bass, the SoundLink Mini II has it in spades while still maintaining a lovely balanced sound. The speaker also contains a mic so you can take calls.À On the left side of the speaker youAAAll find the microUSB charging port and a 3.5mm headphone jack for using legacy devices. The JBL Charge 3 may produce more bass, but it is less controlled and overwhelms the high frequency at times. The SoundLink Mini II is one of the few speakers that has the ability to produce a sense of space around instruments where most other wireless speakers of this size sound dull.À Likewise, mids are lush and warm, helping make vocal heavy tracks shine. shine.
